

MARINE FUEL CELLS

MARINE FUEL CELLS

Marine Pillow Bladders

Fuel Safe's pillow bladders are an excellent choice for transport and containment of many liquids including gasoline, diesel and water. These specialty pillow bladders are collapsible and easy to store in small confined areas. Fuel Safe's materials are lightweight and tough with great resistance to the extreme weather conditions common in the marine industry. Fuel Safe pillow bladders come complete with a fill plate, a drain elbow and a one-year warranty. Custom sizes are available.

Marine Fuel Bladder
Part No. SF25

Transfer Pump
Part No. TP40

Drain Kit
Part No. PB-Drain Kit

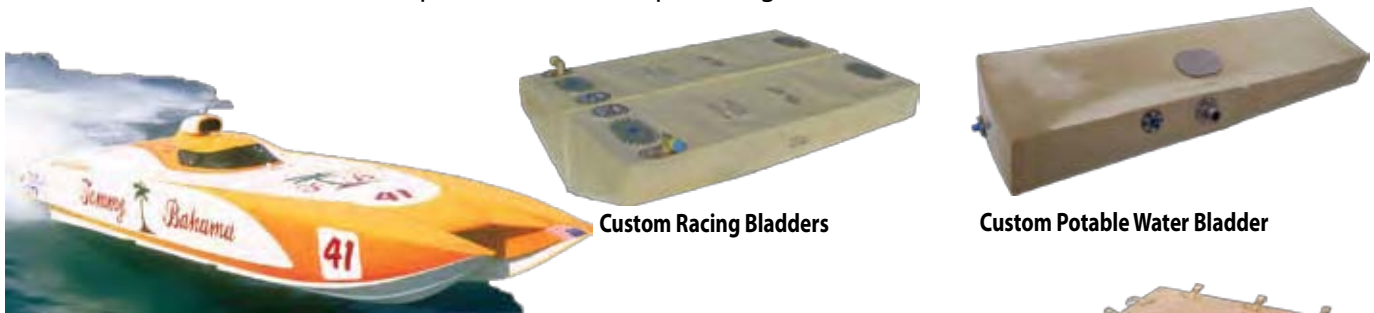

Marine Fuel Bladder
Part No. SF100

Part No.	Capacity	Length	Width	Height
SF25/SW25	25 gal.	42"	33"	8"
