

NASCAR® SERIES

NASCAR® Fuel Cells (Sprint Cup, Nationwide, Camping World Truck Series)

Offering the one, two, three combination of being the lightest, highest capacity and most efficient top level NASCAR® fuel cell available, our NASCOT-5 cells have powered us and the teams that use them to the top tier.

Fuel Safe's NASCAR® fuel cells are simply the best equipment available. One hundred percent built in the USA by our team of dedicated fabrication specialists, our NASCAR® cells will put you in the winner's circle. Our NASCOT cells are fully SFI 32.1 approved and feature top shelf components.

Part No. NASCOT-5

Fuel Safe bladders are purpose built to deliver maximum capacity, seamless fuel delivery and the highest level of protection available. Our high flow, lightweight fill plate was designed in partnership with one of NASCAR's top teams. Fuel Safe's "barely legal" can is engineered for maximum capacity and durability. We offer multiple collector configurations that allow you to "tune" your fuel cell to any track, or we can assist with the design of custom collectors for specialty applications. Whether you race in the NASCAR® Cup, Nationwide or Truck series, your team will see the benefits of using a Fuel Safe NASCAR® fuel cell.

Part No. NASCOT-5 fuel cell installed

All Fuel Safe NASCAR® fuel cells feature these components:

- 18 gauge steel container
- Lightweight, crashworthy fuel bladder
- NASCAR® fill plate with high flow filler, paddle style flapper valve and welded-in vent valve
- Full safety foam baffling customized for your collector
- 2 year manufacturer warranty

NASCAR® Fuel Pickup Assembly

FP-NASCOT-5B4 - Fuel pickup assembly for NASCOT-5 with corner collector, 22" hose length with HTP outer braid and convoluted Teflon inner tube.

NASCAR® Billet Fill Plate

NASCOT-5P2 - SFI approved with high flow fill valve, ultra lightweight, hard anodized

Part No.	Description
NASCOT-5	NASCAR® SFI Complete cell, no collector
NASCOT-5-2	NASCAR® SFI Complete cell w/ single door corner collector
NASCOT-5-3	NASCAR® SFI Complete cell w/ 2-door corner box collector
NASCOT-5-4	NASCAR® SFI Complete cell w/ 3-door road race center collector
NASCOT-5C	NASCOT 18 Gauge Steel Can
NASCOT-5P2	NASCAR® SFI Fill Plate, Ultralight w/ billet high flow fill valve
NASCOT-5B	Bladder for NASCOT-5, SFI, includes NASCOT-5; add -2, -3, -4 to part number for collector style

OVAL SERIES

ARCA, Pro-Cup, Touring Series

These championship winning 22-gallon cells come equipped with full foam baffling, -8 or -10 low profile pickup, CNC-machined billet nut ring, fill plate with 1¼" I.D. vent, steel ball valves and 2⅛" I.D. filler. Xtreme Cells also feature our ultra lightweight and maximum capacity bladder, which truly makes Xtreme Cells the best choice. Xtreme Cells are certified to FIA-FT3.5.

NASCAR® Modified Fuel Cells

Fuel Safe's 22-gallon Pavement Modified Pro Cell Plus and Xtreme cells are equipped with full foam baffling, a 1¼" vent check valve, steel container, -8 or -10 corner pick-up and fill plate with 2¼" O.D. remote fill valve. The PC model features a Pro Cell Plus bladder for superior durability, while the Xtreme Cell® offers the maximum capacity and lightest weight available. Xtreme cells are certified to FIA-FT3.5.

Part No. PC122

Part No. PC124

Part No.	Description	Dimensions	Application
PC124	Pro Cell Plus Complete Cell Whelen Modified	25" x 16.75" x 13.625"	NASCAR® Pvmt. Modified
PC122E1	Pro Cell Plus with RF250C Billet pickup, end load can	33.625" x 17" x 9.25"	Regional Touring, All-Pro, ARCA
PC122E2	Pro Cell Plus with ML6x10C FV245A, end load can	33.625" x 17" x 9.25"	Regional Touring, All-Pro, ARCA
XC124	Xtreme Complete Cell Whelen Modified	25" x 16.75" x 13.625"	NASCAR® Pvmt. Modified
XC122E-1	Xtreme Cell® with RF250C, billet pickup, no collector	33" x 17" x 9.25"	Regional Touring, All-Pro, ARCA
XC122E-2	Xtreme Cell® with RF250C, 1 door corner collector	33" x 17" x 9.25"	Regional Touring, All-Pro, ARCA
XC122E-3	Xtreme Cell® with RF250C, 2 door box corner collector	33" x 17" x 9.25"	Regional Touring, All-Pro, ARCA
XC122E-4	Xtreme Cell® with RF250C, 3-door center box, dir. fins	33" x 17" x 9.25"	Road Racing

Tour Car Fill Plate

Fill plate w/ billet filler and vent neck. Fabricated cages for maximum capacity. Available w/ -8 or -10 pickup sizes. Part No. RF250C

NASCAR® Billet Vent Valve

Eliminates fuel spill. Industry's only specially designed vent for maximum air flow of 114 CFM. Part No. NSV125 (straight) Part No. NSV125-90NC (90°)

Part No. RB122E

NASCAR® Steel Container

Fully welded steel container. Proprietary features make it a favorite of top teams. 20 gauge steel for Touring Series/ARCA/Pro Cup. Part No. SC122E-NC - 22 gal.

Bolted End Load Can

End load can for ARCA and other touring series. Part No. SC122E
