

SPRINT / MIDGET / MICRO

Sprint, Midget and Micro Cells are engineered to deliver championship performance at a competitive price. Fuel Safe sprint cells are constructed from ultra high strength coated fabrics. Choose the Ultra Cell® bladder for alcohol fuel, the Pro Cell® bladder for gasoline or the **NEW ULTRA II DUAL FUEL BLADDER**, which is the first alcohol and gasoline compatible sprint cell.

Upgrade your sprint cell with a built-in collector, baffle or high performance sprint fill plate. The high performance fill plate comes with a larger vent, vent filter assembly and carbon fiber filter shield.

All Fuel Safe sprint cells are delivered race ready with the following components:

- Premium quality true rubber sprint bladder
- High strength molded tail tank (shell)
- SFP240, sprint fill plate with billet aluminum flush cap and low profile -6 rollover vent
- FP183S, -12 fuel pickup assembly, factory installed
- CP6X10 (CP7x12 for 28 gallons or larger) wear guard assembly, factory installed
- 2 year manufacturer warranty
